PROFILE

Information Systems graduate with a strong interest in UI/UX and product design. Highly curious and enjoys exploring solutions to create digital products that are relevant to both users and businesses. Eager to grow, open to feedback, and ready to contribute in a collaborative working environment.

EDUCATION

Bachelor's Degree – Universitas Dinamika Bangsa, Jambi **August 2022 – March 2026**
Information Systems | GPA 3.91 / 4.00

PROJECTS

Pandu Divisi – Web UI/UX Design **January 2026**
MBKM – Vinix 7 Certified Independent Study

- Designed a division recommendation platform that helps prospective participants choose a division based on their interests and abilities.
- Conducted user research and produced user flows, wireframes, UI designs, and interactive prototypes.
- Developed the product as the final project of the program and refined it further as part of my undergraduate thesis.

SantrendCode – Web UI/UX Design **October 2025**
MBKM – Vinix 7 Certified Independent Study

- Designed a learning roadmap platform that helps beginners study web development through a structured learning path.
- Designed a structured and intuitive learning roadmap to help users easily navigate the stages of learning web development.
- Took ownership of user research, user flows, medium-fidelity wireframes, high-fidelity UI design, and prototyping.

WORK EXPERIENCE

JNE – Jambi **July 2021 – December 2021**
Cash Counter

- Managed shipment data entry and prepared package receipt documents to support daily delivery operations.
- Ensured the accuracy of shipment information, including customer addresses, service selection, and delivery details.
- Supported operational workflows related to package processing and shipping documentation.

TRAINING

Information and Communication Technology – Vinix 7 Certified Independent Study
Web Dev & UI/UX Division | Online **August 2025 – December 2025**

- Identified and analysed user problems as the basis for defining requirements and designing solutions through digital products.
- Applied the Design Thinking method across five stage Empathize, Define, Ideate, Prototype, and Test throughout the digital product design process.
- Created user personas, user flows, and wireframes from low-fidelity to high-fidelity as the foundation for UI/UX design development.
- Designed and implemented website interfaces using HTML and CSS, as well as Webflow as a no-code platform.
- Collaborated within the team and with cross-division personnel throughout product development, from problem identification and solution design to implementation.

CERTIFICATION

TOEFL **January 2026 – February 2028**
Universitas Dinamika Bangsa
